OSRC to host Medication Forum

For Immediate Release: Sept. 6, 2017

The Ohio State Racing Commission (OSRC) will hold a medication forum immediately following the regular OSRC monthly meeting on Sept. 26, 2017. The meeting will be held at the Riffe Center, 77 S. High St., Room 1948, Columbus, OH, 43215.

Attendance and input is welcome and anyone wishing to comment on OSRC medication policy can address the OSRC at that time.

A similar forum was held in April 2015 to consider the adoption of Racing Medication Testing Consortium (RMTC) thresholds for therapeutic substances. A number of OSRC-licensed veterinarians participated in that discussion.

Since that time, there has been an evolution of the RMTC list and associated thresholds, as well as changes in the regulation of medication nationally and in several contiguous states.

The OSRC is particularly interested in hearing veterinarians' views regarding the use of Clenbuterol and intra-articular corticosteroids, and whether there should be different policies for their use in Thoroughbreds and Standardbreds.

For those wishing to address the OSRC, please contact Executive Director Bill Crawford by Sept. 20, 2017.
